Jesus A. Merejo, Director

Qualified Products List (QPL)

Project Name:

The following products have been found to be acceptable and/or desirable for this project. Specific product choices are noted by circling manufacturer's name, specific model number, and submitting two (2) sets for approval. Shop drawings need not be submitted for approval if the Contractor uses products on this list. Any product not on this list will require prior approval by submitting shop drawings to the City of Port St. Lucie Utility Systems Department. Shop drawings will also be required for all pumps, water meters and non-standard items, such as manholes, wet wells, other castings, and control panels.

All materials shall conform to this listing or approved shop drawings. All requests for materials or substitutions shall be approved prior to delivery to the job site.

By our signature, the Contractor agrees to adhere to the following product specifications. It is understood that the City of Port St. Lucie Utility Systems Department will reject construction not in accordance with this document.

Note: The following items will be provided to the PSLUSD prior to project acceptance.

1. One repair kit for every five (5) fire hydrants or fraction thereof.
2. One operating wrench for every ten (10) fire hydrants or fraction thereof.
3. One repair kit for every pump station.
4. One manhole hook per project with new manhole lids. (includes interceptors)
5. One valve key (minimum 5' long) per project with new valves.

Concurrence of Contractor:

PIPE SUPPORTS

FM Stainless, LLC Stainless Steel Stanchion Saddle Support (316 SS, Fig 59a)

PRESSURE TRANSDUCER

Force Main – Ashcroft - K1-5-M02-42—P7 100 PSI, with 6' cord

Water Service – Ashcroft – K1-5-MO2-42 100 PSI, with 6' cord

PUMP STATIONS

Pump Station repair kits contain the following: 1 full set of fuses for entire panel (supplied with panel), 1 set of contact for the motor starters, and 1 full set of fuses for the disconnect if fused (3" to 6" long fuses inside of disconnect).

Grinders -

Myers (Hydro Pumps)

Atlantic Environmental Systems Inc (MOPS)

CONTROL PANELS

ECS Control Systems

Best Controls Company

Curry Controls Company

Control Panels Components for Lift Stations:

Surge Protection – Edco (analog) Polyphasor (radio), Square D (Electrical)

Corrosion Inhibitor – Eaton, Zerust, Hoffman

Radio – Calamp Viper SC100 for 151.5650 MHz / Calamp Viper SC400 for 452.1000 MHz

Heliac Coaxial Cable and Connectors – Andrews, LMR

Terminal Blocks – Entrelec, Square D, Panduit

Control/Timing Relays – Square D, AA Electric, Diversified, Syrelec

DC/DC Converter – Converter Concepts

Battery Charger – Xenotronics

Batteries – Werker, Polysonics, Uuasa (12V, 7.5 AH minimum)

Control Transformers – Square D

Motor Starters/VFD – Square D

Breakers – Square D QO

PLC – Modicon M340

Fiber/Ethernet Switch – Cisco IE3000 – 4TC

Fiber Patch Panel – Corning, Anixter

Fuses – Bussman, FuseLite

Phase Monitors/Alternators - Diversified

Unistrut Corp., Unistrut Metal Framing (316 SS) with Vinyl End Caps

Submersible Pumps

Grinders - Myers (Hydro Pumps) Homa (MOPS)
Non Clog –Flygt

Telemetry

Antenna –
Glades/Northport WWTF – 151.565 MHz, Antenna - Sinclair 150 – 174 MHz
Southport/Westport WWTF – 452.100 MHz, Antenna – Sinclair 450 – 470 MHz
Tower – Rohn 25G Base, 25AG Top

Wet Wells (See PSLUSD Form 29 for pump selection)

Grinders – Fiberglass – Myers (Hydro Pumps) Atlantic Environmental Systems Inc. (MOPS)
Non Clog – Precast Concrete

Valve Vaults

Grinders – Fiberglass – Myers (Hydro Pumps) Atlantic Environmental Systems Inc. (MOPS)
