

You can help  
save lots  
of water  
by making  
simple changes  
in your  
bathroom  
routine.

## Do not disturb... Conserving water

I'm brushing my  
teeth with the  
faucet off

I'm taking  
a 5-minute  
shower

I'm only flushing  
toilet paper  
and what  
nature provides
