### Standard Details in DWG Format Application

The City of Port St. Lucie Utility Systems Department (PSLUSD) has provided standard details in an AutoCAD compatible (ver. 2019) DWG format for your convenience. The files are transmitted via secure download. To request these files, please complete this form and email it to [jrowley@cityofpsl.com](mailto:jrowley@cityofpsl.com).

#### Terms and Conditions

The detail files contained within the secure download, in DWG format, belong to PSLUSD and may not be altered in any way, including reduction in size. The up to date PSLUSD standard details posted on the PSLUSD website in the PDF format supersede any DWG format standard details that you receive. PSLUSD has the right to update, change, or delete any detail drawings at any time and without notice.

PSLUSD makes no representation or warranties regarding accuracy of fitness for a particular use. The Engineer of Record is responsible for using sound design and engineering judgment regarding the use of these standard details.
